FAI/ CIAM Positions:
Subcommittee Chairman
F3 Radio Control Aerobatics

Delegate to Germany

Harsdorf/Germany, November 15, 2022

CIAM Subcommittee F3 Radio Control Aerobatics Report 2022

The actual F3 Aerobatics Subcommittee period May 2022 till April 2023 has 23 members and additionally there are World Cup Coordinators for F3A and F3P

The Subcommittee and the Working Groups worked actively and in a very cooperative way during the last year, although the troubles with Covid 19 in 2020 and 2021 and economical problems all over the world had some influence on motivation. A big thank to the Working Group Coordinators.

After two years 11 F3A- and two F3P World Cup competitions took place. The number of competitors was mostly lower than the years before.

The FAI F3A European Championship was held at the end of August near Zamora/Spain after it had to be cancelled for 2020. The competition was well organized and competitors and officials enjoyed to have been there, Unfortunately the number of competitors was much lower than in 2018. Reasons may be the increased costs for travelling and accommodation.

Discussions within the Subcommittee and relevant Working Groups:

- about better defining some items in the Manoeuvre Execution Guide,
- about rule clarifications for F3A, F3P and F3S,
- about new manoeuvre schedules for F3A A-27, P-27 and F-27,
- about new manoeuvre schedules for F3P Aerobatics F3P AA-27, AP-27 and AF-27,
- about introducing a Basic Schedule for F3P
- about new SB-24 and SP-24 schedules for F3S
- about general problems and issues with F3 Aerobatic classes,

The chairman

- supported the organizers of 2023 F3A World Championship and 2023 F3P Championships to find officials and to create Bulletin 0.
- prepared and submitted to FAI 20 Sporting Code proposals together with additional proposals and Aresti drawings for F3A sequences A-27, P-27 and F-27 and F3P sequences AB-24 AA-25, AP-25 and AF-25 and two new schedules for F3S SB-24, SP-24,
- supported the Spanish Organizer of 2022 F3A European Championship to prepare the event,
- took part in CIAM Bureau discussions,
- attended several E-Bureau Meetings and all E-Technical Meetings of 2022 CIAM E-Plenary Meeting.

Thanks to all people who cooperated and supported F3 Aerobatics Subcommittee and me.
