F3C/F3N World Cup Report 2022

In 2022 only World Cups in the class F3C took place. No organizers were found who wanted to host a World Cup for F3N.

1. F3C

In total 7 competitions were on the FAI calendar, but only 6 competitions took place. So, 6 World Cups counted for the final result. The first competition was held in Denmark, followed by Austria, Germany, Italy, Switzerland and United Kingdom. The last World Cup in 2022 should take place in China, but the organizer has postponed the event until 2023 due to the COVID-19 situation in China.

The World Cup in Italy was created because of a special situation. The 2022 F3CN European Championships should have taken place in Italy. Because of severe problems in the Italian NAC and a small number of registered teams, the European Championships had to be cancelled. The organizer of the European Championships asked if it would be possible to run an F3C World Cup instead of the European Championships. Because all deadlines to register a World Cup were finished, the CIAM Bureau had to be asked. All members of the CIAM Bureau agreed and so the European Championships were switched into a F3C World Cup.

All World Cup competitions have only taken place in Europe.

No protests in any competition are known.

All participants were in possession of a FAI licence.

At most World Cup competitions three P schedules (preliminary) and two F schedules (final) should be flown. In Italy and UK there were four preliminary rounds. All rounds could be flown because of good weather conditions. Only in Denmark one final was cancelled because of rain.

Winner

The Winner of the F3C World Cup 2022 is Steve Roberts from UK.

Conclusion

The F3C World Cup 2022 was again very successful. Because of the number of competitions the class F3C will take part at the World Cup awarding ceremony at the 2023 CIAM Plenary Meeting. The number of competing pilots was nearly the same as in 2019. This kind of competition is still well accepted by the pilots and this is why we want to continue with F3C World Cups in 2023.

2. F3N

No F3N World Cups took place in 2022.

Conclusion

It is necessary to find organizers for F3N World Cups to keep this class interesting. Without any F3N competitions the number of pilots will decrease more and more.
