

## **F4 Scale Sub-committee Report for 2023**

We have in 2023 been 16 people in the Subcommittee.

A working group was set up to find the last small errors in our sporting code. Zoom has been used as the platform for meetings, and it works well.

Scoring systems and recruiting new Judges is also a undergoing task for us in 2023.

The huge work of the new sporting code that was published in 2023 seems to be well received.

The Euro Scalemasters was organized in UK at Buckminster. This is one of the few F4 competitions on the FAI calendar, and work is going on to get more competitions on the calendar. Hopefully also for the free flight and C/L classes.

We got bid for WC 2026 and the work is underway for securing bid for 2028.

Pål Lindèn Anthonisen  
F4 Scale S-C Chairman
