Dates: from 1993 till end of 2011

5.  Shown outstanding merits in developing aeromodelling by organisational activities:

Description: (please print)

In 2015, Dr. Sulc had attained a living anniversary as he reached the age of 70 year.

His model sports career started in 1955 and we can point him out as one of the very pioneers of model flying in former Czechoslovakia. Actively competed in free flight categories – F1A, F1B and in the category F1C, in which Mr. Sulc has represented the Czechoslovak Republic.

In 1973 he achieved the two World records registered under the No. 45 and No. 47 (free flying hydroplanes in distance and altitude).

Mr. Sulc organized many international contests and events. The traditional F3B event known as the “Tatranska F3B”, Mr Sulc had been working as Contest Director for 10 years.

In the former Czechoslovak model sports association, Mr. Sulc has served on the highest positions and later after forming the Slovak Republic, was one of the establishers of the Slovak Model Sports Association and a long-time delegate for Slovak Republic at the CIAM.

In 2015 retired in the position of the President of Slovak Model Sports Association and has been active in this position for 33 year, which made him one of the longest serving persons in this or similar function.

Mr. Sulc has been several times as the Team Manager of Slovak Team at World- and European Championships and for fourteen times in the position of the Jury President or a Jury member on 1<sup>st</sup> class CIAM FAI events and regularly participating on World Cup events.

The SMSA is nominating Mr. Miroslav Sulc for his life-long work at the Slovak Model Sports Association, his model sports publicity, good achievements on the field of the sporting diplomacy and for his achievements as the president of the SMSA and representing his country in the international organizations.

In October 2007 Mr. Sulc had the honour and has been nominated and awarded with the Paul Tissandier diploma.

NAC Signature

---

President or Secretary General of nominating FAI National Airsport Control  
(Must be submitted to the FAI OFree Flying Modelsice by November 15)
