IL COMMISSARIO STRAORDINARIO

Sen. Giuseppe Leoni

President or Secretary General of nominating FAI National Airsport Control

(must be submitted to the FAI Office by November 15)

My name is Marco Morsucelli, I'm 17, and I live in Italy, where I attend the art school with the intention to become an architect.

My passion for model aircraft was born when I was six years old. The following year I participate to my first competition in the Circolino Championship. The passion for this wonderful hobby grows. I practice on Saturday and Sunday, and when I was ten years old, I become an F3A pilot, and I participate to the Italian Championship every year.

In a few years I reach the top of the standings in the championship, and at 15 years old I went to my first European Championship in Austria. I placed 5TH, and the Italian Team won the championship.

The following year in the F3A World Championship in America, I won the junior Championship and I placed 11TH overall. In the 2011 World Cup I placed 4TH.

I spend many hours of my life to this beautiful hobby, giving up almost always to join my peers activities, but I have really great satisfaction.

Life on the airfield is challenging problems to solve with others, testing of new planes, and meeting old and new friends from all around the world, the joy of participating in international competitions with the hope of winning, the harmony with Andrea, my helper, which now is for me like a brother. I have grown serene and happy.

My family has made huge sacrifices to afford everything, but always with happiness.
