

## **Report on the Euro cup F3D Pylon Racing 2011**

Three Euro cup competitions were held in Siziano ( I), Melnik (CZ), and Ballenstedt ( GER), which had in total 62 competitors. The Euro cup was won by Carlo Perella from Italy, 2<sup>nd</sup> Roberto Cavallaro from Italy, 3<sup>d</sup> Marcel Huisman from Holland.

The F3D safety rules were securely applied, no ground impact reported after collisions in the rules defined safety areas.

Race times were slightly slower than in 2010, probably due to the use of the mufflers on the exhaust systems. The major mechanical problems with the mufflers that existed in 2010, were not yet totally solved in 2011.

Robbert van den Bosch, administrator Euro Cup

Rob Metkemeijer, chairman F3D Sub Committee
